

Online learning before, during and after Co-Vid 19. Observations over 20 years

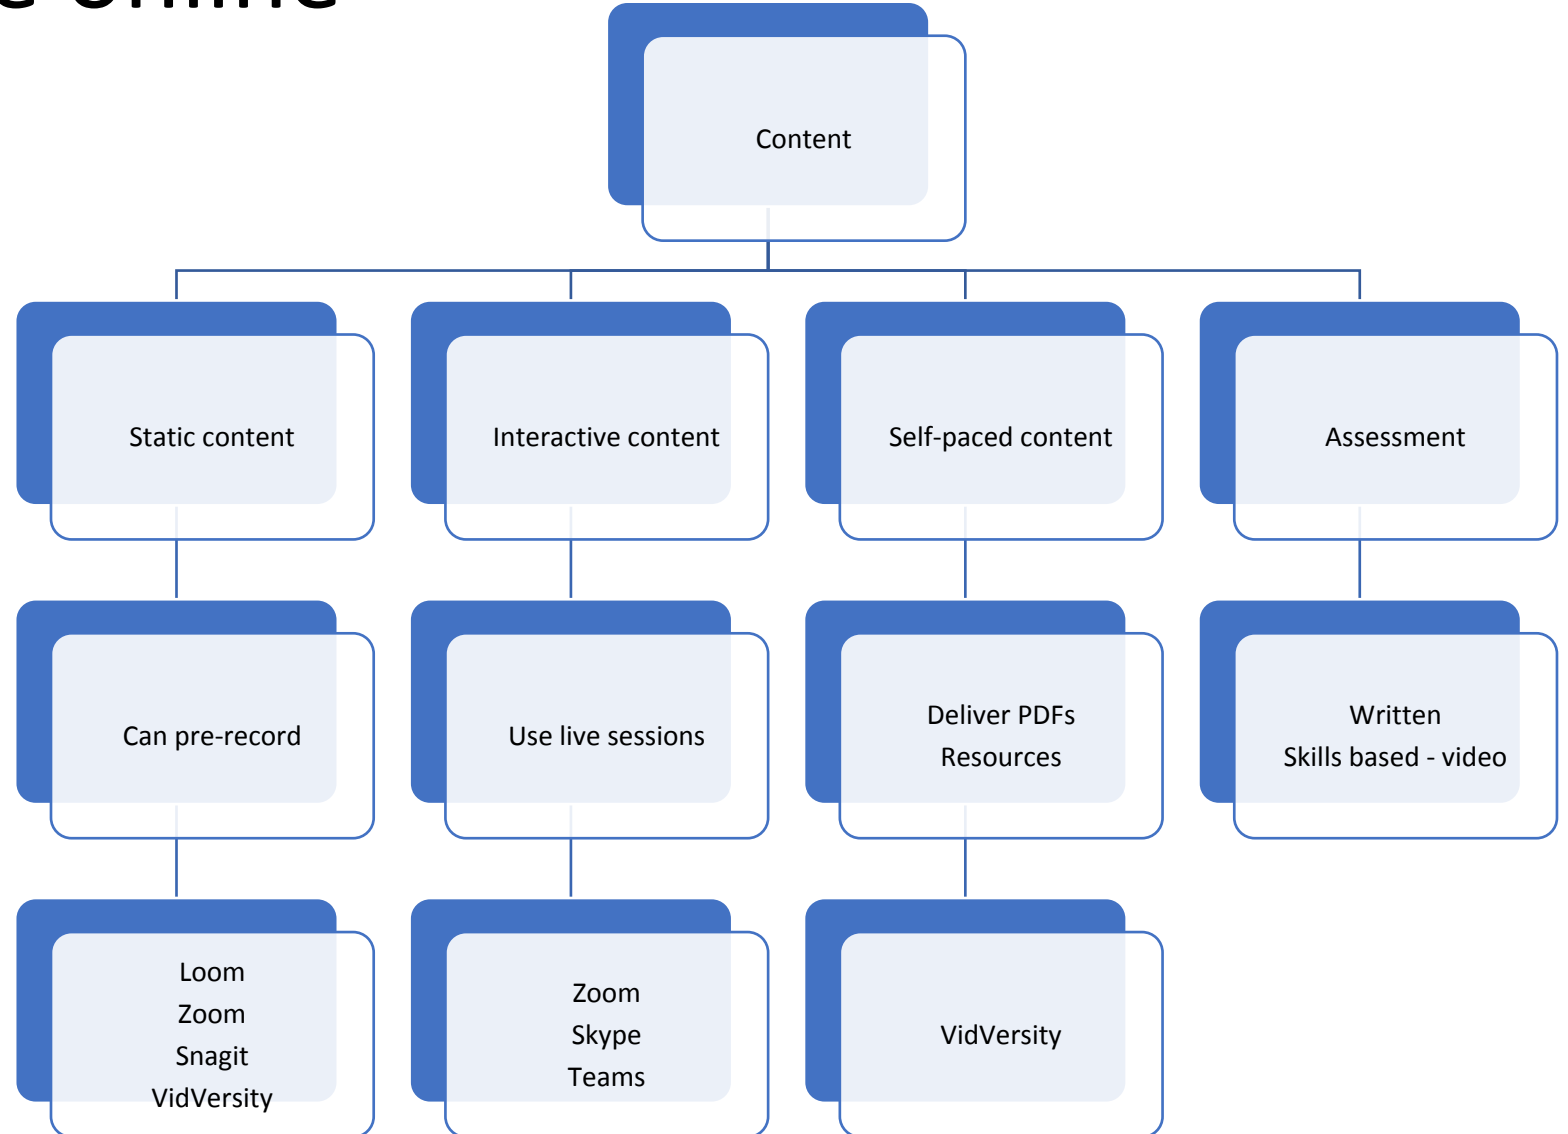

Natalie Wieland

June 2020

vidiversity

Process to move online

The world is a
different place

Coming out of Co-Vid

Educators empowered with technology and experience. A new mindset!!!!

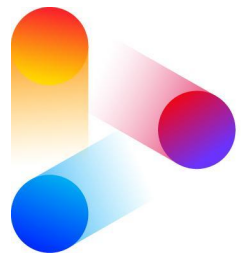

A more collaborative approach when creating online learning where the educator/SME is central to the process

An understanding of why both synchronous and asynchronous learning play a key role

Blended offerings

Based on the YouTube/TikTok generation coming through – online learning will remain a key part of training
